## Short Description

---

Grok promise to provide uncompromised quality and unique brilliant designs to all of their light fittings, Grok are well known for their revolutionary ideas and their ability to adapt to the latest design trends.

Created in 1998, Grok is part of the Leds-C4 group who have been designing and producing lighting for over 40 years. Grok designers look for innovative concepts, ideas and directions to create singular pieces with personality for your spaces.

The emergence of led technology in the world of lighting has brought about a revolution. Grok; select first-class diodes from the best manufacturers around the world because of their high chromatic performance offers sharper, more intense, purer and deeper colours. Coupled with this they also offer longer service life, reduced consumption, increased environmental protection, and above all complete versatility.
