

Brown Pendant Single Ceiling Light 12cm

Product Images

Short Description

Do you like natural wood and geometric forms? If so, the WOODY collection is perfect for you! It consists of elegant plafonds with one or two light sources, a wall lamp and a hanging lamp. With this set, you can compose cohesive lighting for your living room, dining room, kitchen or even hallway. The warm shade of wood will add a cosy touch even to the most austere, modern interiors. It will also be great for minimalist Scandinavian decor. Depending on your design ideas, the geometric WOODY lighting can be both a subtle complement to the character of the interior and its main theme.

Description

This light fitting was designed and produced in Europe with a focus on longevity rather than fleeting fads. We encourage our customers to do the same and invest in timeless, and versatile solutions that will seamlessly blend into any space, whether it's the kitchen or the bedroom, both now and in the future.

Having products manufactured in Europe ensures a high level of quality and attention to detail. European manufacturing standards are known for being some of the strictest in the world, which means that the lighting you buy from us is made with precision and care.
